

Submitting a Site Proposal

Please submit your proposal, covering all of the points listed in Appendix A to Professor Michael Levy <Michael.levy@griffith.edu.au> by July 31, 2010.

A strong proposal would exhibit the following characteristics. The committee realizes that no one venue may meet all of the criteria perfectly.

- A venue that is easily accessible internationally by air
- A sponsoring university or academic association with people with previous experience arranging large conferences.
- A venue that contains a large auditorium, a suitably large exhibit and poster session area and a sufficient number of breakout rooms for the planned number of concurrent sessions.
- A location where the various rooms mentioned above are close to each other.
- Internet connectivity for presentations, and preferably for the general participants, as well.
- A budget that permits a generous number of scholarships for participants from underserved regions.
